"All right. Here's the situation. We've got a vandal. One individual. He knocked a number of letters off your church sign. No witnesses. No motive yet. The maintenance crew is tied up—clearing snow from the parking lot. That leaves us with you. The letters fell straight down. Gravity did its job. Order did not. Your assignment is simple. Start with the columns that have a single letter—those are easy. Then move on to the two- and three-letter words. Pick letters that make sense. Real words only. When the job is done, notify your benevolence pastor. Just the facts."
