

People in Need

Family Discussion

“Have I ignored the needs of the poor, turned my back on the indigent, taken care of my own needs and fed my own face while they languished? Wasn’t my home always open to them? Weren’t they always welcome at my table? “Have I ever left a poor family shivering in the cold when they had no warm clothes? Didn’t the poor bless me when they saw me coming, knowing I’d brought coats from my closet?”

Job 31:16-20 (MSG)

Discuss

- Who are some of the people Job mentions that needed help?
- Why is it sometimes easy to help people we know, but harder to help people we don't know?
- What are some small ways each of us (kids, teens, and adults) can look out for others this week?
- Let each family member choose one simple action, such as: praying regularly. writing an encouraging note. donating items. learning more about protecting life or helping the needy

Pray

- Thank God for all the times people have helped you when you were in need – doctors, nurses, relatives, neighbors, first responders, etc.
- Ask God to help you remember His greatness when you see someone who needs help.
- Pray for people you know who need God’s help right now.
- When you hear a siren in the distance, pray for the people involved ... injured, dangerously ill, or even a law breaker.
