This tragedy just in from local sources. Half the letters on the church sign fell down ... straight down. The youth pastor needs your help to put them back in the right place. This is not the first time it has happened, and he tells us that you should start out with single letters in columns, then look for two and three letter words and figure out which letters make reasonable words. Contact him when you've made the necessary repairs. He's confident you can do it.
