Fallen Phrases Puzzle

Ah HA! This message was forwarded to us from our embassy in Bonzbefolk. It's not a decryption job, it's simply a reconstruction. The letters were pasted on, but rain affected the glue and some of the letters slid down, straight down. Some will be easy, there's only one letter in that column. Then look for two or three letter words and figure out which letters make meaningful words. The chairman of your church's evangelism committee is waiting for the reconstruction for this message.
