Got a real brain-twister for ya. It starts with some clue words from your Scripture—only they ain't clues till you unscramble 'em, and they ain't unscrambled till you figure out what they mean. Then you take the numbers and decode the secret message with 'em.

It's kinda like gettin' signs from the third-base coach: you don't know what's goin' on, but somehow it makes sense when you get there.
