One of the Baptist churches here on the outskirts of Anchorage, Alaska has had their sign attacked by a rogue grisly bear. Somehow, he knocked all the letters straight down. The bear is long gone, so we need help getting the letters back up in place. Some letters are easy, they are the only ones in that column that fell. Next, go for the two or three letter words and replace letters that seem to make sense. When you finish, notify the worship pastor. It was his week to put up a message.
