Don't tell anyone, but I'm the secret operative for here in Kiarab. We received these scraps of paper in two different message drops. Can you help us decode them? Sorry about their condition, but it's been raining here. The key at the top gives the letters which go in the matching spaces of the message. Most of key letters are given, but you might have to do some thinking to finish the message. When you finish, decrypting the message pass it along to your church web master for posting.
