BILLIONS OF STARS

"To whom will you compare me? Or who is my equal?" says the Holy One. 26 Lift your eyes and look to the heavens: Who created all these? He who brings out the starry host one by one, and calls them each by name.

Because of his great power and mighty strength, not one of them is missing.

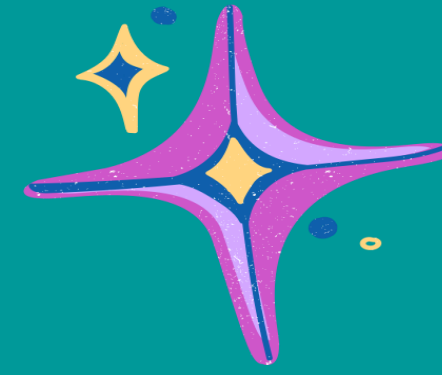

Isaiah 40:25-26 (NIV)

DISCUSS

- Astronomy experts estimate there are 200 billion trillion stars in the universe. Figure out how and write that with all the zeros following the 2.
- What do these verses say about God in relation to all these stars?
- What other things cause you to be in awe of the Creator God?
- If God created the stars and calls them by name, how does that give you assurance?

PRAY

- **Tell God how you are in awe of His beautifully designed creation.**
- **Thank God for His personal attention to not only the names of the stars, but your names and family also.**
- **Pray for people both near and far that do not yet recognize God's power and authority and love for them. May they soon hear of and place their trust in our loving Heavenly Father**
