

The Ultimate Sign Cryptogram Puzzle

Our consulate in Elof Monorger received these two parts of a coded message. Above is the code, below is the one time pad used to encode it. Our decoding team is on Easter break with their parents. Ironically, they are in Elof Monorger. We need your help to use the numbers in the message to find the letters in the encoding pad. Some are missing, so you'll have to figure those out when you get everything else recorded.
